

CLIENT FEEDBACK

★★★★★

"Hello, Thanks this new system it seems great. Just to specify please only plant red peppers (not green and yellow), and more proactive advice in managing plants that overtake the garden without bearing fruits would be very helpful. The pumpkin overtook the whole garden, so much so it was hard to access it, but without any result. Only when i probed we were told it wont bear any fruit. So knowing what to keep or cut back beforehand would be great. Thanks!"

Rooibos Mulch: Not Allowed

QTY	UNIT	ITEM	DETAILS
